

# Dr. Enzo Minghella DVM MRCVS

## 1) PROFESSIONAL EXPERIENCE

### Residency in Veterinary Anaesthesia

*Sept 2010 – at present*, School of Veterinary Medicine, University of Glasgow.

My responsibilities include:

- general anaesthesia and sedation of both medical (internal medicine, oncology and dermatology) and surgical (soft tissue, orthopaedic and neurosurgery) patients under the supervision of 4 ECVAA Diplomates
- perioperative care and pain management.
- sedation and general anaesthesia for CT, MRI and radiotherapy patients.
- organising the daily work plan.
- teaching final year veterinary students and veterinary nurses.
- on call cover out of hours and on weekends.
- Research project

### Veterinary Anaesthetist and ICU staff member

*Jun 2010 – Jul 2010*, North West Surgeons, Delamere House, Sutton Weaver, Cheshire, WA7 3FW, UK.

### Internship in Small Animal Anaesthesia

*Apr 2009 – Mar 2010*, Small Animal Teaching Hospital – University of Liverpool.

My responsibilities included:

- general anaesthesia and sedation of both medical (internal medicine, oncology and dermatology) and surgical (soft tissue, orthopaedic and neurosurgery) patients under the supervision of 3 ECVAA Diplomates
- perioperative care and pain management.
- sedation and general anaesthesia for CT, MRI and radiotherapy patients.
- organising the daily work plan.
- teaching final year veterinary students.
- maintenance of anaesthetic and monitoring devices throughout the hospital.
- on call cover out of hours and on weekends.

### Veterinary Anaesthetist and ICU staff member

*Jun 2008 – Mar 2009*, Rome, Italy.

My responsibilities included:

- veterinary anaesthesia during the daytime and ICU staff member and emergency clinician at night for different veterinary referral hospitals in Rome.
- anaesthesia for orthopaedic procedures, neurosurgery and critical patients.
- anaesthesia for ophthalmic surgical procedures with a European specialist in ophthalmology (DECVO).
- anaesthesia for a veterinary dentist.

### Veterinary Anaesthetist and ICU staff member

*Dec 2007 – May 2008*, Clinica Veterinaria Roma Sud, Via Pilade Mazza 24, 00178, Rome, Italy .

My responsibilities included:

- general anaesthesia for spinal (10 cases per week) and intracranial procedures in small animals
- emergency clinician and ICU staff member

### **Veterinary Anaesthetist and ICU staff member**

*Dec 2006 – Nov 2007, Ospedale Veterinario La Favorita, Via della Favorita 5, 00040, Ardea (Roma), Italy.*

My responsibilities included:

- general anaesthesia for elective and emergency procedures
- emergency clinician

### **Veterinary Surgeon**

*Aug 2006 – Dec 2006, Ambulatorio Veterinario G.M. Schiaffini, Via L. da Vinci 07049, Usini (SS), Italy.*

My responsibilities included:

- mixed practice (small animal and equine medicine)

### **Internship in Equine Anaesthesia (Student intern)**

*Feb 2004 – Jul 2006, Facoltà di Medicina Veterinaria, Università degli Studi di Perugia, Italy.*

## **2) EDUCATION**

### **Doctor of Veterinary Medicine (DVM)**

*Jul 2006, Facoltà di Medicina Veterinaria, Università degli Studi di Perugia, Italy.*

Degree thesis title: *“Foal anaesthesia: physiologic patterns and proper clinical approach in the first 6 months of life”.*

Final mark: 110/110.

### **High School Certificate**

*Jul 2000, Liceo Scientifico Statale “B. Pascal”, Pomezia (RM), Italy.*

Final mark: 100/100.

## **3) GRADUATE TRAINING**

### **Association of Veterinary Anaesthetists (AVA), Spring Meeting**

*Apr 2011, Bari, Italy.*

### **Radiation Safety Course**

*Feb 2010, University of Liverpool, UK.*

### **Internship in Small Animal Anaesthesia**

*Apr 2009 – Mar 2010, Small Animal Teaching Hospital – University of Liverpool.*

### **Using Gas Cylinders Safely Within Universities Interactive Workshop Course**

*Jul 2009, University of Liverpool, UK.*

### **Association of Veterinary Anaesthetists (AVA), Autumn Meeting**

*Oct 2008, Barcelona, Spain.*

### **Externship in Small Animal Anaesthesia**

*Jul 2008, Anaesthesia Department, Small Animal Teaching Hospital, University of Liverpool, UK.*

### **Loco-Regional Anaesthesia Course, ISVRA**

*Apr 2008, Bellaria, Italy.*

### **Association of Veterinary Anaesthetists (AVA), Autumn Meeting**

*Sept 2007, Leipzig, Germany.*

### **Small Animal Inhalant Anaesthesia Course, ISVRA**

*Jul 2007, Jesolo, Italy.*

## **4) PUBLICATIONS**

*‘Pain after injection of a new formulation of propofol in six dogs’, Veterinary Record  
2010 167: 866-867*

## **5) MEMBERSHIPS AND ASSOCIATIONS**

Royal College of Veterinary Surgeons (MRCVS)

Ordine dei Medici Veterinari di Roma e Provincia

Italian Society of Veterinary Regional Anaesthesia and Pain Management (ISVRA)  
Association of Veterinary Anaesthetists (AVA)

## **6) PERSONAL SKILLS AND COMPETENCES**

*Mother tongue: Italian*

*Other languages: English, Finnish*

*Driving licence: full*

As an anaesthetist my main interests are locoregional analgesic techniques and propofol TCI for induction of general anaesthesia and the impact of different drugs used as co-induction agents on propofol TCI.

Outside work I like to be as lazy as possible. Cooking is for me the equivalent of yoga, I love wine tasting and everything social. When the tummy appears and it is springtime I enjoy (I force myself) running and doing everything that is outdoor sport.

I am up for any kind of advice and support for all the Italian guys that will visit this website and want to discuss about veterinary anaesthesia and analgesia.

***I miei interessi principali come anestesista sono le tecniche di analgesia locoregionale e propofol TCI per l'induzione dell'anestesia generale e l'impatto di altri farmaci usati per la co-induzione su questo tipo di tecnica.***

***Al di fuori dal lavoro mi ritengo abbastanza pigro. Per me cucinare e' come fare yoga, mi piace la degustazione dei vini e tutto cio' che e' vita sociale. E se compare un po' di "panzetta" e la primavera si avvicina mi piace correre (nel senso che mi impongo di correre) e ogni tipo di sport all'aria aperta.***

***A completa disposizione per tutti gli italiani che visitano questo sito e che vogliono discutere di anestesia e analgesia veterinaria.***
